USAF Public Health Total Force Salutes Ms. Lilo Gmur

(Umlaut missing – sorry)

The international effort of USAF Public Health to keep our workforce healthy requires an international team. Lilo is THE longstanding member of the PH Team at Ramstein Air Base in Germany, where she has served since 1977!

She recently attended the ergonomics course at USAFSAM where I was thrilled to see her – for the first time since we worked at Ramstein together from '79-82.

Mac

Meet Lilo

Lilo started in the Ramstein Veterinary Clinic on 23 May 1977 as a clerk typist and was promoted to a Translator/Interpreter in Aug 1980.

Thanks to MSgt Rick Langan, she became an Environmental Health (later Public Health) Technician in Dec 1985. Lilo completed the Management of Environmental Health Programs Course in Brooks AFB as distinguished graduate in Nov-Dec 86. She has since rotated through all sections of Public Health. Lilo took parents leave May 87 – Apr 88 and Nov 89- Mar 91 to give birth to and care for two wonderful boys.

In Dec, 1997, she developed and began to implement a new occupational health exam program for the 2100 non-US civilians on Ramstein AB. Her tasks involve coordinating between CPO, BIO, Safety, Public Health and the German Occ Health Clinic; interpreting BIO results to determine necessary exams according to local requirements in cooperation with German Occ Health doctor; and giving training to the employees accordingly.
