Cross Talk

Are you aware of the Team Aerospace cross talk forum “coffee shop” open to all located on the PH web site? This is an excellent opportunity to throw out or seek information. I’m not sure there is any room to work harder than you already are, but there may be a way or two to work smarter. I know I’ve reinvented the wheel a couple of times and kicked myself when I found a similar process already out there. In many MTF’s A’s are isolated and feel as if no one speaks your language. Here is an excellent opportunity to network and get feedback. Any section may be looked at but for continuity please post your inquiries in the Public Health section.

So, how do I get there what do I do? Log on to the USAF PH web site, <http://wwwsam.brooks.af.mil/eh/index.html>, scroll to the bottom and click on to the Team Aerospace button. This will take you to a log on screen that will require a few seconds to set up an account. Name, email address, pass word, etc. have a pen and paper to jot this down. (I forgot mine and, well, now have two access codes.)

Training Standards and Distance Learning

The letter signed by M/G Wyrick < <http://wwwsam.brooks.af.mil/web/eh/immdoc/train.pdf> > that has standardized training for vaccine givers and established a date (1 July 99) for formal training requirements will evolve. Some aspects will drop out and some new guidance may be inserted. A definite is that the implementation of the program is going to be pushed back until Jan 00. As we all know there was a Distance Learning piece to this training mandate. At long last I do have it and am going sleepless with review. My goal is to have it scrubbed by the end of next week. (7 June 99). From me it goes to the CFM, Chief Maraglia < <http://usafsg.satx.disa.mil/~sgn/chief/chfmar99.htm#CHIEFS> >

AFMOA is providing me the opportunity to meet the staff and orient to the “Ivory Tower” process. I will get minimal face time with the movers and shakers. Do you have any concerns other than manning, overload, and support that you’d like me to try and bring up? (These are already on the list) Please let me know.

Highlights from the Dover AFB anthrax education efforts are posted on our website:

< <http://wwwsam.brooks.af.mil/web/eh/immdoc/shotops.htm> >

Upcoming highlights: What did they say in DC, Manning, Training and rumor control.

TSgt “Odie” Stoll
